Legal War on

PASADENA, Oct. 12-Undeterred by

Secretary of Agriculture Jardine's rul-ing, granting the county flood-con-trol district permission to build a low-line railroad through San Gabriel Canyon to its dam site, Pasadena of-ficials now plan to exhaust all pos-

sible legal means in compatting the project.

Formal protest against the building of the railroad, which will pass through the site of Pasadena's once-proposed municipal dam, and threats of an injunction suit are contained in a letter which the City Attorney's office will submit to the Board of City Directors tomorrow for approval, before it is sent to the Los Angeles County Board of Supervisors.

No efforts willage spared to continue the fight against the country's plans, City Directors have decided in informal meeting, despite the fact that decisions rendered after two Paderal hearings in which the county and city claims were presented both overruled Pasadena's contentions in favor of those of the county.

Candidates for positions on the Occidental College cross-country track squad are being drilled well by Coach Joe (Timberwolf) Pipal, Tiger mentor. The conference cross-country meet will take place on the Tiger oval in December. The Tiger hopes rest with Rege Lavelle, 1925 captain, who has charge of the 1926 team. Turnouts for this sport are small, as usual. The reason for this small representation is that the cross-country and football season overlap one another. Hugh Miller, Paul N e well and several newcomers compose the squad now under the wing of Pipal, veteran track coach.

The remaining 50,000 seats, the ones referred to as being behind the goal posts and on the curves, are now on general sale to the public. Of this number 10,000 have already been sold, I am informed by Arnold Eddy, assistant graduate manager of U.S.C. Though some folks can't seem to appreciate it, the same situation, only in more aggravated form, exists all over the country. Take the California-Stanford game, for example. Of the 80,000 tickets available in the Memorial Stadium at Berkeley next month not one was put on public sale. All pasteboards have been taken by the two institutions for the use of their student bodies and alumni. There's no squawk about whether you get seats behind the goal posts or on the curves at Berkele. You just consider yourself lucky if you fall into a ticket.

Morey Druv, and Brice Taylor are scheduled to lie in more or less idlenses this week to sillow their injuries to heal. Mort Kaer, who suffered one mangled rib in the Banta Clara game, came through that point further, but managed to thake up a number of additional minor alimanus.

Meanwhile Aubrey Devine, frosh mentor, is rounding his charges into chaps for Saturday's preliminary contest, which finds the Tro-make minging with the Califural Territage. The latter team has not met defeat so far this season, and has run up something-br-the-other men reported for the Bruin cub squad.

Devine sinfered a loss of some valuable men in the recent indeligibility squabble, but the blow was not as had as was first rumored. Rocky was probable up the backfield, in all probabilities. The Tro-Babes meet both the Bears and Stanford this season. Last year they played the Carffa, winning 8 to 6, but did not meet the Cubs.

TORONTO, Oct. 12. (P)-Sumanne Lenglen of France easily disposed of Mary Browne, former American women's tennis champion, here tonight in an exhibition match. The scores were 6-0, 6-2. Vincent Richards defeated Howard Kinsey, 6-1, 6-3. In the men's doubles, Richards and Kinsey defeated Harvey Snodgrass and Paul Feret in a one-set match, 6-4.
Miss Browne and Snodgrass defeated Mille, Lenglen and Feret in one set, 6-3. A hard drive from Snodgrass' racquet struck Mille. Lenglen in the face, but she appeared unburt.

The matches, marking the first Canadian appearance of Miss Lenglen were witnessed by 3500 persons.

They had been expected to walk all over the visitors. Earlier in the season. Oxy held Stanford to a 18-to-0 score. U. S. C. is favored to beat Stanford, but not by a walk away. Basing judgment on comparative scores, which may or my not be a fair test, the Oxy game will give somewhat of a direct line on the possible outcome of the Card game later in the season.

BUXTON OUT

There will be some changes in the Oxy line-up for the game Saturday. These changes will be in the backfield. Bronson Buxtom, halfback, was taken out of the Redlands gabe with an injured shoulder. To fill his place there is a choice of Ward Schweiner or Mike Hunt. Either one may be need with Solly Mishkin at the other half or it is possible that Mishkin will be held out at the start and both Hunt and Schweinger of Saturday. At quarter Brobst, either "Rate" or "Tuffy" by nickname, appears to have the lading with Jack Schweiner. OBSERVATIONS

Pop WARNER's dope about U.S.C. being 74 points better than the Stanford team makes it lok bad for Occidental on Saturday. Pop says that Stanford beat Caltech 14 to 6 two weeks age and Whittier beat the Engineers by the same score last week, making Stanford and Whittier even. Whittier was beaten 74 to 0 by U.S.C. which makes U.S.C. that many points better than Stanford. Hence, if our rather sketchy mathematics is or are correct, since Stanford beat Occidental 19 to 0 the Trojans ought to be an even money bet to beat Occidental 19 to 0. We don't often bet on anything but we'd advise all and sundry against taking the U.S.C. end of that wager.

What Pop did say that really

What Pop did say that really counted, however, was that Coach Jones has a whale of a football team. As Warner said, reochall team. As Warner said, the team shows no weakness whatsoever and is much better than last year's outfit. There wasn't any reason for anybody to feel bed about the Trojan showing against Washington State because the Trajana, in besting the Cougars, best a farn good football team. Washington State's showing simply indicated that no

Occidental's chances against U. S. C. depend a good deal upon the spirit with which the Tigers advance foward the fray. If they have the same flery spirit that characterized the work of the Cougars they are going to be a tough outfit for the Trojans to beat because they have lots of good material, plenty of speed and are seasoned throughout. From the reports ginanating from Eagle Bock, the Oxy team isn't entirely convinced that the Trojans are a better football team, and if that is the case they ought to enter the fracan with the right kind of spirit anyhow.

There will even be some interest in the fraces at Bakersfield between the famous Driller eleven and the Oxy frosh. Both teams have yet to be heaten.

This became known yesterday w both fighters started their train at the Manhattan and Willis has opened camp at the Main-street Club. It has been five months those Lonaki showed here, when he defeated Ted Moore, the Englishman. Willis has been away three months. His last fight was with Bert Colims. Both fighters have grown since that time. Lomaki can do 100 if necessary, but prefers to box most of his matches five or six pounds above this notch; He made 1884 for both shots at Jock Malone. Willis scaled 184 pounds for Colims. He is now around 188 in condition. This fight figures to be a singing "natural." Neither bears much reputation as a boxer, but they are the hardest-hitting folks in the middiweight division. Both became cards in Loc Angeles by knocking out Online.

RED REGIME HIT BY FEDERATION !

Fascism Called Autocratic Dictatorship

Radical Propaganda Assailed by Convention

uous rejecting a proposal to align the federation in a campaign seeking formal diplomatic recognition of tusins by the government of the inted States.

The committee reports

The committee report was approved unanimously by the convention.

A resolution characterizing the Pascist regime in Italy as a tyrannical dictatorship and affirming "the hearty support of the American labor movement of all institutions of representative government."

UPHOLDS DEMOCRACY
"In Pascism we find merely another form of dictatorship and autocracy." A principle of government which can never find anything but opposition in the minds of free people, said the committee's report on the resolution, which also was unanimously approved. "To all who are denied their freedom, we hold forth the torch of

workers of Passaic, N. J.

"Your committee sees no reason for recommending that the American Pederation of Labor modify or change its position regarding recognition of the autocratic soviet regime in Russia," said the committee report on Russia.

"There has been no essential change in either the character or the operations of that regime since we last had the question under consideration. It remains a regime of ensiavement, a regime determined to bring about world revolution if, and when, possible. Through the Red Internationale, which is controlled by the communist party of Russia, the soviet regime has continued its efforts to undermine and destroy the democratic labor movement of the United States.

SITUATION UNCHANGEN

"We are not interested in the com-mercial aspect of the question, agree-ing fully with President Coolidge in holding that American principles are mercial aspect of the question, agreeing fully with President Coolidge in holding that American principles are not to be bartered. Nor is the question affected by whaterer may be the change—and there has so far been little in the economic condition of the people of Russia. A regime of enalavement which for a purpose sees fit to feed its alaves well at times is no less a regime of slavery and no less a regime of slavery and no less a regime of slavery and no less repugnant and hateful in the sight of those who cherish liberly. The report also voiced the detarmination of the federation to permit none of its members to have any official connection with a proposed labor commission to investigate conditions in Russia, sponsored throughout the country recently by labor organizations not affiliated with the American federation.

John L Lewis, president of the United Mine Workers of America, in a vigorous denunciation of the activities of Russian sympathizers in the United States, particularly with reference to their subversive campaign within the ranks of organized labor, charged that the proposed labor charged that the proposed labor

The miners' president also denounced the conditions of labor in coal mines owned by members of the brotherhood in West Virginis, in which he said wages lower than the punior sondenders saked leave to appeal the portion of the decision retained the conditions of labor in coal mines owned by members of the brotherhood in West Virginis, in which he said wages lower than the punior bondholders sought to delay and, if possible, to averthen the said wages lower than the punior bondholders saked leave to appeal the portion of the decision regions called the conditions of labor in coal mines owned by members of the brotherhood in West Virginis, in which he said wages lower than the punior bondholders saked leave to appeal the portion of the decision receiving their ples to be admitted as the proposed commission of soviet for the railroad's properties, which the said wages lower than the punior bondholders saked leave to appeal the portion of the decision received the conditions of labor in coal mines owned by members of the brotherhood in West Virginis, in which he said wages lower than the punior bondholders saked leave to appeal the portion of the decision received the conditions of labor in the properties, which the punior bondholders asked leave to appeal the portion of the decision received the conditions of labor in the properties, which the punior bondholders asked leave to appeal the portion of the decision received the conditions of the punior bondholders asked leave to appeal the portion of the decision received the conditions of the punior bondholders asked leave to appeal the portion of the decision received the conditions of the punior bondholders asked leave to appeal the portion of the decision received the p

Lewis flayed the soviet sympathisers in one of the most vigorous expressions of denunciation ever heard on the floor of a federation convention, personally naming William Z. Foster, an officer of the Trade Union Educational League, who was in the gallery as a spectator.

William Green, president of the International Brotherhood of Stationary Firemen and Oilers, who had previously addressed the convention in support of the commission of the international Brotherhood of Stationary Firemen and Oilers, who had previously addressed the convention in support of the commission of investigation, evaded direct response to a question from President Green as to whether he would in the event of the commission.

Healy said he reserved the right to act in an unofficial capacity in whatever manner he elected in this and all other questions.

President Green read excerpts from the constitution of the third internationale, in which soviet sympathisers were urged to "destroy the labor movement" and concluded with a stirring peroration calling upon the convention to accept the challenge.

In calling for the vote he asked the summinus vote of the sonitive of the unanimous vote of the convention of the tunanimous vote of the convention for the committee report. The said. No one arose.

"The secretary is authorized to cast the unanimous vote of the convention for the committee report." he said.

RESUMES TODAY

Walb's letter said: You have made loose statements regarding crime and corruption in public offices in the State of Indians. It is obvious that y ur purpose is to cast reflection not only on the government, but on candidates for office as well.

"The Republican party is concerned as much as you or any one else to know whether any candidate on that ticket is guilty of any wrongdoing." It herefore request you, while it is yet time, to inform me publicly as the State chairman of the Republican party of any fact, if you have any, which would support your veiled instnuations that there may be candidates for office who have been guilty of crime or corruption. crime or corruption.

"If you mean to be fair to the opie and to the candidates you will imediately become specific."

Tragedy Ends Three Lives on Vermont Farm

BARRE (Vt.) Oct. 12. (P)—A triple shooting that wiped out a family of three in a lonely farmhouse Sunday old farmer, his wife and 6-year-old

daughter. Joyce.

Police expressed the belief tonight that Morrison in a sudden fit of intentity shot his wife and daughter after they had retired and then ended his own life.

It is known, they said, that Morrison had broaded over his health and farm affairs.

The best answer to Where shall I live in Hollywood?" is unmistakably

Think of owning a homesite in the hills of Hollywood-overlooking a lovely blue lake! This is possible at Hollywood Knolls.

C OME and see this delightful foothill retreat in beautiful North Hollywood—and only 5 minutes from the shopping center of the film

Come and see what will be the best improved foothill residence section from the standpoint of public improvement in the entire Hollywood-Beverly range of hills.

Big street improvement contracts are now under way. An unusual street illuminating system will be established. Beautiful miniature parks will lend color and distinction to the entire develop-

Discriminating, hard-to-please people are build-ing homes in Hollywood Knolls because of the natural adaptability of the knoll sites to the erec-tion of residences. Those who have longed for foothill homes, but have hesitated to buy hillsites because of their usual precipitous character and the resulting high cost of building — will be delighted with the practical, almost level sites in

Do you want the best climatic conditions that exist in the entire Los Angeles County area? You'll find them at Hollywood Knolls.

Not too high-not too low-not too close to the ocean-and not too far away from it.

High enough to get pure, clean bracing air. High enough to get away from fog-damp, dust, smoke, and the noxious gases of auto traffic.

High enough to secure the most incomparable views (from every point of the compass) obtainable from any foothill subdivision in the Hollywood-Beverly district.

PLANS are maturing for an exclusive "modern art colony" of famous people on one of those spacious sum-mits on Hollywood Knolls which directly overlooks lovely Lake Hollywood. Included among these notables will be famous cartoonists, both retired and active stage celebrities, prominent architects, painters, advertising counselors and others skilled in modern art.

Hollywood Knolls appeals to esthetic, artistic tastes to people who appreciate natural beauty - to those who love broad expanses of blue sky, magnificent sunsets, wonderful star-lit nights, entrancing vistas of hills, mountains, city and valley and the delightful scenic advantages of a real blue lake —an aquatic gem in a setting of everlasting hills.

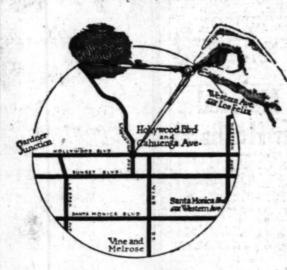

Low enough to be practical for all residential purposes. Low enough to eliminate all feeling or appearance of isolation. Low enough to enable you to reach the level of Cahuenga Boulevard in 50 seconds—and then drive to Hollywood's shops and theaters in about four to six minutes.

No steep grades to climb—just an easy, effortless ascent that proves what scientific road construction can do.

And don't overlook the investment side of this strategically located foothill development. Close enough to the vast motion picture studio interests (First National, Universal and several others) to get the benefit of their great land-value-increasing developments-yet not too close to be disturbed by studio activities.

Home-building is proceeding at a rapid rate. Plans now under way for many attractive residences indicate that the present building activity will be tremendously accelerated.

Before you buy or build, investigate the surpassing residential advantages of Hollywood's most desirable foothill offering.

African Natives Desert Scene of Mine Explosion

CAPETOWN (South Africa) Oct. 12. CAPETOWN (South Africa) Oct. 12.

(Exclusive)—Large numbers of natives are deserting the mining district at Newcastle. Natal, the scene of the explosions 'ste Priday night and early Saturday morning, involving the deaths of four whites and lib natives. The natives, who are superstitious, are in fear of the dark places from which the bodies are being brought out.

Three natives brought out alive lived just long enough to tell the story of the disaster. It appears that one white man was repairing a wiring installation. Stepping backward he stumbled, the cable fell and touched a steel rail, causing a short circuit. A spark was generated and this was followed by a shattering explosion of gas. The victims were enveloped in a flood of carbon dioxide yas added to the toll as Mine Captain Shirlaw, in charge of the research.

Prime Minister, in particular, has in mind the reversal of the British Empire. At present it is a group of daughter states dependent on and chartered as nations by the mother country. Gen. Hartwog's idee is that it should become a true federation of independent states, granting power to the central government, somewhat on the lines of the American Union. Ireland also is known to hold this view.

At any rate, Prime Ministers Bruce and Hertwog are determined to get action of some sort out of the comping conference, believing that the present policy, if allowed to drift, will prove injurious both to the Empire and constituent states.

Get Your Prize-Winning Votes NOW!

Here is the biggest vote-getting opportunity you will have during The Times \$50,000 Automobile and Prize Campaign. Until November 6, you can add thousands upon thousands of EXTRA votes to your credit—votes that will enable you to win one of the thirty beautiful automobiles pictured on this page.

LOS ANGELES TIMES \$50,000 PRIZE CAMPAIGN

It's just starting! And now comes this EXTRA VOTE offer! Just at the right time. Put forth your best efforts during this first period. Make sure of success. Only votes are required to win these magnificent prizes—thirty automobiles—thirty-six radio sets—eighteen \$50 cash prizes—and here is your chance to get enough votes to put you on top. If you are already entered in the campaign, profit now by this special vote offer. If you have delayed sending in your nomination, read below how you can start with a rush—and send in your name at once.

100,000 EXTRA VOTES

on or before November 6, 9 p.m., a bonus of 100,000 extra votes will be given. These extra votes are in addition to the regular votes given on each separate subscription, as shown in the vote schedule on the right.

By a club is meant any combination of subscriptions totalling \$30. A club may be aprised of "Sunday only," Daily only" and "Daily and Sunday" subscriptions. It makes no difference whether subscriptions are for three months, six months, a year, or up to three years. They may be either carrier subscriptions or mail subscriptions, or both.

Only bona-fide NEW subscriptions will apply on this offer. Candidates are not limited to one club. Every \$30 worth of subscriptions will count as a club, earning the 100,000 extra votes. Two \$30 clubs, for example, would earn 200,000 votes. And every individual subscription in the club will earn its regular votes as usual.

THIS 100,000 EXTRA VOTE OFFER IS POSITIVELY THE BIGGEST SPECIAL VOT-ING OPPORTUNITY OF THE ENTIRE CAMPAIGN. It closes at 9 p.m., November 6, and will not be repeated during the remainder of the campaign.

All new subscriptions that may have been turned in by candidates since the campaign

Candidates are urged to turn in their subscriptions as soon as they are obtained, so that subscribers may receive their paper promptly. It is not necessary to hold subscriptions back until \$30 worth are secured. The campaign department will keep an accurate record of every individual subscription received, and issue the REGULAR votes thereon as received. At the close of this special offer a SPECIAL VOTING BALLOT will be issued to cover the extra votes earned.

New subscriptions are worth more votes now than they ever will be later. This extra vote offer may place you safely on the winning list. Make the most of it!

THE INVESTOR Bulletin of New York Trust Company Supports Stand of Prof. Ripley for More Lucidity in Reports on Affairs of Corporations.

NEW YORK Oct. 12. (Exclusive)—
The New York Trust Company in its latest investment bulietin, the Index, has gone into the subject of publicity for corporations very thoroughly and its conclusions, which correspond in a general way with tnose of William Z. Ripley of Harvard, should be of interest to investors.

In the opinion of the bank, the most significant development in this respect since Mr. Ripley's article appeared is the immediate agreement of most business men and economists.

"Business has had this in mind for some time," says the builetin, "and several manufacturers have come to the defense of their balance sheets, pointing out this or that informative statement which Prof. Ripley overlooked. Argument arises mainly over the method whereby this publicity of company accounts can be assured."

by indorsing their speakers at a meeting held last night at the Rosemoni School.

That the Major Traffic Commission was threatening to put upon property owners in the West First street district a burden of assessments that would run between \$14,000,000 and \$24,000,000 was the statement made by J. D. McCarthy, who also read a certified copy of the Barnes resolution.

The speaker was followed by M. O. Graves, an attorney, and by Gen. Donovan, for many years a resident of that section. Each of the speakers denounced the Major Traffic Commission, some of whose members it was declared do not own any real estate in Los Angeles. It also was stated that no benefit would result to the property owners from the widening of West First street, and that the districts benefited would be Hollywood. Beverly Hills and the new Westwood section of the university. Real estate values in the section affected by the proposed widening plan have increased but slightly in the past twenty years, the speakers declared, and additional assessments would take from the owners the modest homes they now have, and in many instances would leave them sixty-five feet above the street level.

UNION BANDS GET AIR AND GOOD ADVICE

They Won't Play Because of Schoolboys in Parade, So Latter Do it All

BALTIMORE, Oct. 12. (Exclusive The boys of the St. Elizabeth's Cath-lic School band almost blew the greath out of their bodies today as ey marched in the Columbus Day

of the parade and officials of the Baltimore musical union.
Officials of the union said that St.
Elizabeth's was not a union band.
The marshal of the parade must choose between having St. Elizabeth's in line and having four union bands.
Those in charge of the parade said that Columbus discovered America and therefore had sounded the American spirit of independence and they wouldn't allow themselves to be told just what they could and what they could not do.

So they marched off with St. Elizabeth's khaki-clad boys blowing their hardest and musicians of four union bands were left behind.

The romance is one of but short duration. Goodwin and Miss Marks met for the first time a week ago when he signed her for a part in skit. They talked it over and decided that seven failures in the past made the edds in their favor for success in the eighth. But the future, and eighth, Mrs. Goodwin stood firm in her demand that there be no ninth Mrs. Goodwin, and Goodwing acquisced. Both declared yesterday that this marriage is really one of love.

Goodwin is only 32 years of age.

"Nat was married but seven times and be was 60 when he died," Googwin said, "and Kid McCoy, who is at least 49, has been married but seven times. This is my eighth and I am still young."

"But there won't be any ninth."

haif a dosen defense lawyers raised voices in protest at such short notice. Estrada's asserted army, subdued without shot or struggle, was held in the marine barracks and County Jail at San Diago until ten days ago when they were brought to the Los Angeles County Jail to await trial. A special train was necessary to transport them here and a reapportionment of space was necessitated at the County Jail on their arrival.

United States Marshal Sittel's announcement Monday that he had been authorized by Atty-Gen. Sargent to employ twenty extra guards for "Estrada's army" during their trial brought offers of assistance from every kind of self-admitted warrior bold. One veteran of the Civil War "reckoned" he could "handle the whole bunch."

Praise from Sir Hubert" has come to California, and pertinently to Los Angeles and its environs, from no less person age than Otto H. Kahn, world-renowned financier and almost equally renowned pa-tron and inspirator of the fine arts. Mr. Kahn is head of the great banking house of Kuhn, Loeb & Co. and as also president of the Metropolitan Opera Company of New York. His home offices are on the eastern rim of the continent; but his vision i broad enough to sweep far west of the Hudson River and envision a great empire in the making on the Pacific Slope. When he came here to attend the national convention of bankers he left all narrow, sectional prejudices behind. He was not intimidated by fear of backbiting from the home folks to give praise where he felt praise was due.

Speaking at a luncheon at the California

Club, he indulged in encomiums calculated to bring the blush to the cheeks of our most extravagant home boosters. "You must be fed up," he said, "with hearing vis ftors enthuse about that which God hath wrought on this most blessed piece of earth, and that which His creatures have so well and worthily done with the oppor-tunities which He gave them. My only excuse in joining in that, to you, so famil iar chorus is that I simply cannot help it I am a pretty hard-boiled traveler and bave seen many of the places of interest and beauty which the world contains; but I am so full of enthusiasm for what you are and have that I simply must refer to it." Rum Case Defendant Avers Sleeping Sickness Caused His Discharge From Every Job so He Had to Resort to Bootlegging

John Uroff, 122 South Clarence street, turned bootlegger, he told Municipal Judge Turney yester-day because he was afflicted with sleeping sickness and every time he got a legitimate job he was discharged for sleeping on duty.

He was arrested by Police Sergeant Hodges, who testified that when he investigated Uroff's residence the defendant rah out of the back door of the house and smashed a jug of moonshine

whisky on the sidewalk. The officer, however, succeeded in mopping up approximately a pint of the liquor, which he introduced as evidence against Uroff.

"You weren't very sleepy about that time, were you, Mr. Uroff?" Deputy City Prosecutor Thomas asked the defendant.

"No, I had had my rest that day," the defandant answered.

"Well, Mr. Uroff," Judge Turney interposed, "the court will give you a chance to get a five-day sleep with the city. Til sentence you to \$100 or five days."

TEXAS TAXES CITED

Charles A. Rudel tax expert of the Pacific-Southwest Trust and Savings Bank, discussed the work of analyzing bond proposals. A capital analysis of all bond proposals. In declared, is tremendously vital. Porkbarrel legislators, he declared, will inevitably raise taxes.

"If we can educate the taxpayer to demand the same economical administration of public affairs from the legislative bodies as that given by the directors of a corporation to its stockholders, then we have accomplished more than any other reform ever attempted."

The price Texas paid for her experiment in feminine government was briefly described by H. L. Richter, one of the Lone-Star State delegates. In the last few years, he said, without naming any administration, taxes in Texas increased 200 per cent.

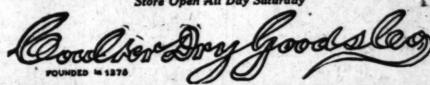

Montana's delegation reported, however, that since the Taxpayers' Association was organized there, taxes have been reduced 30 per cent. es have been reduced 30 per cent and expenditures have come to be in the nature of investments.

forgettable as he casually strummed
the guitar. It was as exquisite in its
troubadour-like spell as anything that
he has had opportunity to sing in any
performance, and he gave it with magnetic artistry.

Rimini somewhat astonished with
his singing of the Barber role. The
"Largo al Factotum" was not perhaps
spectacularly done by him, but it was
an excellent and very finished achievement. And the "Largo" always is an
schievement if sung well because it
happens to occur so very early in the
opers, before the singer has a chance
to prepare the way for it.

The applause betokened the audience's enthusiasm for his rendition of
the famous patter aria, and it was
undoubtedly his most noteworthy success this season.

Rimini's performance throughout
was very clever and quite spontaneous. He has a fisir for roles of the
lighter type.

MELIUS IN TRIUMPH

was very clever and quite spontaneous. He has a flair for roles of the lighter type.

MELIUS, IN TRIUMPH

Melius's popular triumph was the greatest, and was to an extent to be anticipated, because the interpolated songs with their encores yield a rare chance to the singer. She availed herself of this by first singing the Polacca from "Mignon" very dazzingly. She followed this with such sure-fire appliance getters as "Annie Laurie" and "The Last Rose of Summar." There were cheers as well as abundant handclapping indicative of the manner in which she had charmed her listeners, particularly after the Polacca.

It seemed rather a pity that she did not attain the same bright height in "Una Voce Poca Fa." her first aris. Her voice is very charming and clear and although she does not always take the highest brave-bringing notes, she rarely fails to disclose that warmth and beauty of tone which made her Olida in "Rigoletto" so very effective and delightful. There is no doubt that she is thoroughly established as a favorite.

Behips is always clever. The audience enjoyed his comedy tricks immensely because of their naivete last evening. He appeared to be having a great time out of the performance, what with cutting capers with his sword during the tipsy scene, knocking papers out of the hands of Basilio and Bartolo, and otherwise providing an enlivening lot of light slapstick. Schips has made "The Barbiere" quite largely his opers through his vocal art combined with that esprit which he never falls to bring to the stage on every occasion. Who, too, can sing faster or more sectfully those passages of recitative?

Lazzari's voice was a boisterous success. In the scene where he tells Bartolo his suspiciona shout Rosina's love smalr with Count Almavia. Ocorges Bakianoff, famous baritone appearing with the Los Angeles Opera Association this season.

"Every Russian is born with the ability to understand music and the dance in its every phase," states Mr. Bakianoff. "Opera is a part of his very soul. He grasps it and worships at its shrine, much as the American worships—baseball."

After this remark the opera star smiled, a smile that made one believe that he himself was not entirely in ignorance of the fascinations of the famous American game and the outcome of the recently played world series.

"To the Russian," continued Mr. Beklanoff, "the opera holds all the thrills of your famous sport. Each aria is as keenly contemplated as the first home run and each opera star, a national hero, regarded in our country much the same as you regard—Babe Ruth."

Mr. Baklanoff possesses none of the formidable or tragic traits that are in evidence in most of his operatic toles this season. A radiant personabity, a rare sense of humor, all the raivets of the French and Russian combined makes him a most likable and interesting individual.

That the production side of the Russian opera differs in many respects from this country was evidenced in the statements made by the singer. In Russia opera is a national institution. SANTA MONICA, Oct. 12.—The City THE SKUNK OUT!
One day when the circus was playing in the animal kingdom, four friends—a lamb, a frog, a duck and a skunk—wished to attend. The admission fee was \$1. How did they get in?
The lamb had four quarters, the frog had a greenback, and the duck had a bill, so they had no difficulty: but the skunk had only a cent—and a poor one at that.—[Market for Exchange.]

Yesterday Mrs. Jean McCracken, psychopathic parole officer, went to the rancho to see how he was getting along, it was said, and Ward evidentily feared he was to be taken back.

According to the report, Ward took a stick of dynamite from a box stocked with explosives to be used in making a well, attached the cap and fuse, and, lighting the latter, at cown on the dynamite. Though evidently badly injured by the explosion, it was related, he ran 100 feet for another stick, arranged it as before, and lay down upon it. He died a few minutes after the second explorion.

#### TWENTY BIDS MADE ON TOPANGA ROAD

Twenty contractors have submitted their bids to perform the work of re-building that portion of Topanga Canyon drive from the city limits at Girard to the top of the pass. Since this is only the first unit of the work, which is to take the whole drive from Girard to the sea, the contractors are desirous of submit-ting as low bids as possible, it is said. The present job covers 1.34 miles on the new alignment. The work includes grading and fill-ing, surfacing, widening, building of headwalls, guard fences and culverts.
